

LES DAUPHINS

CÔTES DU RHÔNE RED

The High Environmental Value certification confirms that the vineyard: promotes biodiversity, reduces quantity and frequency of the treatments use, maintains plant cover on uncultivated areas and preserves water resources.

CLIMATE AND SOIL

The vineyard is located in the South-East of France, around the village of Tulette, in the old historic region of Dauphiné.

There are two different soil types in southern Côtes du Rhône: clay limestone soil formed of sedimentary rock and pebbles and stony soil with a sandy sub-soil.

TASTING NOTES

A decidedly southern style of wine with a bright garnet hue, a reflection of the sun-drenched terroirs from which it hails. It boasts a seductively smooth structure and notes of lightly caramelized ripe black fruits. The palate is silky smooth with notes of liquorice and mocha, revealing a good length and melted tannins.

GRAPE VARIETIES

60% Grenache
40% Syrah

SERVICE

16-18°C
