

LES DAUPHINS

IGP MÉDITERRANÉE WHITE

The new generation of winegrowers in our region are involved in a sustainable production and shows a total commitment to protection of the local territory and biodiversity.

CLIMATE AND SOIL

The vineyard is located in the South-East of France, around the village of Tulette. A sunny Mediterranean climate cooled by Mistral winds, very beneficial for the vine.

There are two different soil types : clay limestone soil formed of sedimentary rock and pebbles and stony soil with a sandy sub-soil.

VINEYARD AND VINIFICATION

The quality of our wines lies in the careful attention given to each stage of the winemaking process. The grapes are grown in carefully selected plots and picked at dawn in order to preserve pale colour, crunchy aromas and freshness. Aged for four months to increase drinking pleasure and offer smooth mellowness.

TASTING NOTES

With its gleaming pale colour, this aromatic white reveals generous notes of yellow fruit (peach) lifted by hints of white flowers. An elegant wine that is beautifully fresh and silky with an agreeable touch of suavity.

GRAPE VARIETIES

40% Grenache Blanc
30% Clairette
30% Colombard

SERVICE

8-10 °C
